U. S. GOLD DOLLARS of the BRANCH MINTS.

Dahlonega, Georgia Mint Gold Dollars.

COMPLETE SET of the "D" MINT GOLD DOLLARS.

Including the Excessively Rare 1855 D., 1856 D., 1857 D., 1860 D. and 1861 D.

- 59 1849 So-called large head and large stars; open wreath reverse. Brilliant uncirculated, sharp and perfect in every respect. Very rare and valuable so choice.
- 60 1850 Closed wreath, as all are. D high. Very fine, traces of mint luster. Rare.
- 61 1851 D low. Pin point nick on obverse edge. About uncirculated, with bright mint luster. Sharp impression. Rare, very much so, so choice.
- 62 1852 Large D. Extra fine, with traces of mint luster. A pin point, hardly noticeable nick on reverse edge. Very rare in any condition.
- 63 1853 Same type as last. About uncirculated, sharp impression, with considerable mint luster. Rare.
- 64 1854 Smaller D, and smaller stars than on preceding. Practically uncirculated, with considerable mint luster. Very rare and valuable, especially so choice.
- 65 1855 Small D, as all are. The first L and part of second L and 8 of date weakly struck as is usual on these pieces. Strictly very fine, with some traces of mint luster. Extremely rare, and undoubtedly one of the very finest specimens known of this rare and valuable coin. Seldom offered.
- 66 1856 Larger D. **Uncirculated**, with even mint luster. Every letter and figure well struck up. The U in UNITED is the only exception, which of course is the feature of this particular coin, but on this piece the re-engraving of the U is very plain. Extremely rare in any condition, but in this wonderful state of preservation I consider the coin one of the rarest of our entire series.

- 67 1857 **Brilliant uncirculated**, with an unusually bold impression on obverse. Very rare and valuable. Considered a great rarity in this wonderful condition.
- 68 1858 **Uncirculated**, bright mint luster. An unusually bold impression with every letter and figure prominently struck up. Rare.
- 69 1859 Practically uncirculated, only highest portions of obverse show the slightest marks of circulation. The surface is nearly all with bright mint luster. Good strong impression, including the reverse. Rare, especially so choice.
- 70 1859 Another just as last, equal in condition. Rare.
- 71 1860 UN of UNITED, as usual, weakly struck, otherwise can be classed as extremely fine, nearly uncirculated. Evidence of circulation is evenly distributed and the entire coin is free from the slightest marks of nicks or dents. It is perfect in every respect. Of the few specimens of this rarity offered in the past several years, I consider this one of the best. Records range from \$40.00 to 80.00. One of our rarest gold dollars.
- 72 1861 The rarest known gold dollar. As near **uncirculated** as this great rarity is undoubtedly known. A pin point, hardly noticeable nick above 1 on reverse. In order to "play safe", I catalog this specimen as extremely fine, but I'm quite certain that it will readily be accepted as uncirculated. The obverse is strongly struck, with full mint luster, only the highest portions show the barest touch of circulation. The reverse is evenly well struck up, with a nice even mint luster surface. Undoubtedly one of the finest, if not the finest, specimen of this excessively rare coin, which has a record at private sale of \$350.00, although since then specimens have sold for less.

CHARLOTTE, N. C., MINT GOLD DOLLARS.

- 73 1849 Small head and small stars; closed date. Uncirculated, bright mint luster, especially on reverse.
- 74 1850 Small C. Uncirculated, with semi-proof surface. Nearly equal to a proof. Very rare in this wonderful condition.
- 75 1851 Yellow gold. Uncirculated, sharp, with even frosty mint surface. As perfect as the day it was minted. Although not a very rare date, I consider it rare and valuable in such wonderful state of preservation.
- 76 1852 Sharp uncirculated, with frosty mint surface. Rare, very much so in uncirculated condition.
- 77 1853 Brilliant uncirculated, sharp and perfect in every respect, with entire surface covered with brilliancy. Nearly equal to a proof.
- 78 1857 The 18 of date not as bold as the balance of date. Uncirculated, with broad borders, the obverse edge of which is very slightly nicked, this defect is only mentioned for the sake of accuracy, but it is hardly noticeable to the naked eye. I do not recollect of ever handling as choice a specimen of this gold dollar. Its surface is a frosty mint luster.

NEW ORLEANS MINT GOLD DOLLARS. Complete Set.

- 79 1849 Open wreath. About uncirculated; considerable mint luster.
- 80 1850 Uncirculated, frosty mint surface.
- 81 1851 Brilliant uncirculated perfect in every respect.
- 82 1852 Large O. Uncirculated, brilliant and perfect as the day it was minted.
- 83 1853 Sharp uncirculated, full mint luster. Rare so choice.
- 84 1855 The rarest date of this mint. The 8 of date not as boldly struck as balance of date. Brilliant semi-proof, nearly equal to a perfect proof, and as such very rare and valuable.

SAN FRANCISCO MINT GOLD DOLLARS.

- 85 1854 First year of issue. Beautiful uncirculated specimen, with full mint brilliancy. As perfect a specimen of this rare coin as undoubtedly exists.
- 86 1856 Upright 5 in date. Extremely fine, or in fact can easily be classed as about uncirculated. Very scarce.
- 87 1857 S high. About uncirculated, frosty mint surface. Scarce.
- 88 1858 Uncirculated. The field of obverse shows the very slightest touch of handling. The reverse is as perfect as the day it was minted. Full mint luster. A rare coin in very rare state of preservation, and as such valuable.
- 89 1859 Extremely fine, with considerable mint luster, especially on reverse. Rare.
- 90 1860 Beautiful uncirculated specimen, perfectly struck; even semi-frosty surface, slightly brilliant on obverse. A beautiful specimen and as such quite rare.
- 91 1870 **Uncirculated**, with bright mint luster, considerable proof surface, the obverse could be passed as a proof. Excessively rare and valuable, especially so in this wonderful condition. Old record well over \$100.00.

COMMEMORATIVE U. S. GOLD DOLLARS.

- 92 1803-1903 St. Louis Exposition Issue. Portrait of Jefferson. **Brilliant proof.** Very rare in proof, as only a very small number were struck and these were practically unknown until just a few years ago.

- 94 1903 Issue as last but with portrait of McKinley. **Brilliant proof.** Very rare in proof condition.
- 95 1904 Lewis & Clarke. Busts on either side. Uncirculated. Rare and in great demand.
- 96 1905 Lewis & Clarke, as last. Uncirculated.
- 97 1915 Panama-Pacific Issue. Head of Labor. Uncirculated. Very scarce.

- 98 1916 McKinley Memorial Issue. Head of McKinley. Reverse, the McKinley Memorial. Issued at \$3.00 each. Uncirculated.
- 99 1917 Issue as last. Uncirculated.

QUARTER-EAGLES, \$2.50 GOLD.

- 100 1796 Liberty head with cap, facing right, LIBERTY above, date below. No stars. Reverse, heraldic eagle, sixteen stars about its head, UNITED STATES OF AMERICA, milled edge. Extremely fine, nearly uncirculated, only the highest portions of obverse show just the slightest wear and I doubt if the coin has ever been in circulation. A beautiful strong impression, with even frosty mint surface. Very rare. In great demand, as it is the first Quarter-Eagle.
- 101 1824 Small bust of Liberty facing to left, cap inscribed LIBERTY, date below, 13 stars. Reverse, small eagle, shield on breast, scroll above, 2½ D. below. UNITED STATES OF AMERICA. **Brilliant proof.** Extremely rare.
- 102 1835 **Perfect brilliant proof.** This is not a bright uncirculated specimen with proof surface, but is just as described, an out and out perfect brilliant proof. Truly a little gem and in this wonderful condition very rare and valuable.
- 103 1906 **Brilliant proof.**
- 104 1908 New type, Indian head. Reverse, standing eagle. The entire design incused. Sand blast proof. Scarce.
- 105 1915 Panama-Pacific Issue. Columbia on sea horse. Reverse, eagle on pedestal. Uncirculated. Very scarce and in demand.

THREE-DOLLAR GOLD PIECE.

- 106 1886 Yellow gold. Perfect brilliant proof. Rare.

U. S. FOUR-DOLLAR OLD PIECE.

- 107 1879 \$4.00. Beautiful head of Liberty with flowing hair facing left. Band inscribed LIBERTY, date below; around, a five-pointed star between 6. G. 3. S. 7. C. 7. G. R. A. M. S. Reverse, a five-pointed star on which is inscribed ONE STELLA 400 CENTS, around which in very small letters E. PLURIBUS UNUM DEO EST GLORIA; legend, UNITED STATES OF AMERICA FOUR DOL., milled edge. Proof, partly wire edge. Very rare, and, owing to its odd denomination in great demand. As this rare coin has been selling at \$100.00 to \$125.00 and has even brought more than \$125.00, bids for less than \$100.00 will not be considered.

U. S. FIVE-DOLLAR GOLD PIECES.

Not a very large collection, but containing few of the very rarest specimens.

- 108 1807 First type, bust R. Reverse, heraldic eagle. About uncirculated, with frosty mint surface.

- 109 1807 Second type, bust L. Uncirculated, with every star filled and well struck up. Quite rare so choice.
- 110 1813 Large head. This type prevails to 1834 and all of the greatest rarities are of this identical type. About uncirculated, with frosty mint surface. Very scarce date.
- 111 1826 Uncirculated, sharp and bold impression, every star filled. Perfectly centered, with even milled borders. A perfect and beautiful specimen of this extremely rare coin.
- 112 1827 A pin-point, hardly noticeable nick on reverse edge at U of UNITED. Uncirculated, with frosty mint surface. Perfect in every respect. Excessively rare, probably not more than six or seven known. Considered one of the rarest Half Eagles.
- 113 1832 Thirteen stars on obverse, square-base 2 in date. Practically unc., free from any nicks or dents. Excessively rare. Considered one of the rarest Half Eagles. Latest record, in my sale of the Ten Eyck collection, \$330.00.

Lot No. 114.

The Exceedingly Rare 1832 Half-Eagle with Twelve Stars.

1832 Type similar to last but the exceedingly rare variety with TWELVE STARS on obverse. Curled-base 2 in date. Date close and high; stars trifle larger and borders wider than on the other variety. Extremely fine, traces of mint luster. Exceedingly rare only two or three specimens known, one of which has a large hole at top. Probably only two perfect specimens known, and this is one of them. The first to have been offered in many years. Not even in the Ten Eyck collection.

The only other specimen I ever offered was in my sale of the first Granberg collection, some ten years ago, where it was cataloged as follows:

"1832 Liberty head as on preceding lot but of slightly different die and twelve stars instead of thirteen. The stars are larger and entirely differently spaced than on the other variety of this date. Border is wider and the 2 is with curved base. Reverse is also of an entirely different die; the words in UNITED STATES OF AMERICA are all more compact. Very fine. Exceedingly rare. And to the best of my knowledge this is the first specimen ever offered at auction and I doubt if there is another specimen now known, as out of more than twenty leading numismatists of the United States to whom I inquired regarding this coin, only two, Messrs. Woodin and Prosky of New York, knew of the existence of this variety. The other numismatists advised that they had never before heard of it. Of equal rarity and value with any Half-Eagle."

The specimen then brought \$515.00. Considering the number of specimens known and the advanced values of all gold in the past ten years, I consider this coin of equal rarity and value of any other Half Eagle, be it the 1815, the 1798 small eagle or any other great rarity. This specimen should, and I believe will, bring well into the four-figure mark.

- 115 1834 Second issue, without motto. Variety with 4 of date without Crosslet but double struck. Uncirculated. Scarce.
- 116 1840 About uncirculated, mint luster. Scarce condition.
- 117 1847 Uncirculated, mint luster. Scarce.
- 118 1881 Struck off center, with edge only partly milled. Quite a curiosity. Uncirculated. Scarce.
- 119 1906 Brilliant proof.
- 120 1908 New type. Indian head. Sand blast proof. Scarce.

U. S. TEN-DOLLAR GOLD PIECES.

- 121 1797 Head R., six stars to right and ten to left. Reverse, heraldic eagle. Extremely fine, nearly uncirculated, with considerable mint luster. Very scarce and in demand.
- 122 1799 So-called small stars. Uncirculated, bright mint luster.
- 123 1838 About uncirculated, frosty mint surface. A rare date, especially so choice.
- 124 1906 Perfect brilliant proof.
- 125 1907 **The first type** of the St. Gauden's issue. **Broad borders and with periods** before and after each word. The date on this variety is considerably larger than on the common variety. Uncirculated, full mint luster. Extremely rare. Only about fifty specimens said to have been coined of this variety. When first issued it sold upwards of \$100.00.
- 126 1907 Second type of the St. Gauden's issue. Apparently from the same die as last but with wire edge. Uncirculated. Rare. When first issued it sold up to \$75.00 each.
- 127 1907 Third and common issue. Broad borders without periods; date smaller. Uncirculated.
- 128 1908 Sand blast proof. Scarce.
- 129 1908 Uncirculated.

TWENTY-DOLLAR GOLD PIECES.

- 130 1906 Perfect brilliant proof. Scarce.
- 131 1907 St. Gauden's issue. Liberty with torch. Reverse, flying eagle. The rare variety, struck in high relief, date in Roman numerals, and wire edge. Uncirculated.
- 132 1907 Another as last but of the second issue, with beveled edge, date in Roman numerals. Extremely fine.
- 133 1907 Third issue, date in figures. Uncirculated.
- 134 1908 Type as last. Sand blast proof. Scarce.

PRIVATE, PIONEER and TERRITORIAL GOLD COINS.

These rare and highly interesting coins were issued by Assayers, Bankers and Companies during the early days in the West; and in the '30's in the Carolinas and Georgia. These coins were readily accepted and passed current at a time when there was a pressing need of a convenient medium of exchange. These rare coins are now all in great demand and their values steadily advancing. In my humble opinion, the prices, some of which are seemingly high, for the greater rarities will in the not too distant future seem insignificant.

CALIFORNIA.

UNITED STATES.

First Coin Struck from California Gold.

- 135 1848 \$2.50 Head of Liberty L., coronet inscribed LIBERTY, date below, 13 stars. Reverse, eagle with U. S. shield; around, UNITED STATES OF AMERICA 2½ D. In the field, over the head of eagle, are the letters **CAL.** stamped in. This was done while the coin was yet in the die. Struck at the United States Mint at Philadelphia, from the first gold received from California. **Proof.** Finest known specimen. From the Dr. Wilharm Collection at \$77.50. In this wonderful condition considered a great rarity.

The above coin was struck from a small quantity of gold, about 25 to 30 ounces, sent by Col. R. B. Mason, Military Governor of California, to Secretary of War Marcy, who sent it to the Mint with a request that a quantity of the metal be used in making of Quarter-Eagles, to bear a distinguishing mark such as the Director of the Mint might think proper. The above coin is one of the first struck.

AUGUSTUS HUMBERT.

Fifty-Dollar Gold Pieces.

- 136 \$50.00 Octagonal. The first and rarest type. Eagle on rock holding shield and ribband inscribed LIBERTY; above, on scroll, 887 THOUS.; around, UNITED STATES OF AMERICA; below, 50 D. C. The 887 and 50 are incused; Reverse, fine engine-turned design with small target in center on which is incused 50. Edge inscribed AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1851. Strictly very fine. Free from any serious nicks or dents of any kind. The rarest type of the octagonal \$50.00 gold piece. Very rare, valuable and in great demand.

- 137 1851 \$50.00. Obverse, similar to last, variety with 880 THOUS., value spelled out, FIFTY DOLLS., the same inscription as is on the edge of the preceding coin is on the obverse of this one. Reverse, engine-turned design with large target in center. Milled edge. Usual fine small nicks but no serious nicks or dents. Can be classed as very fine or strictly fine for coin. A very acceptable specimen of this rare coin.
- 137A \$10.00 1852 Eagle as on the \$50.00 gold piece, legend, UNITED STATES OF AMERICA TEN DOLS. Reverse, tablet on engine-turned design, on which is inscribed, in four lines, AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA 1852. Extremely fine, with some luster. Scarce.

MOFFAT & CO.

The Curious and Great Rarity, \$16.00 Gold Piece!

- 138 (1849) \$16.00. Obverse, in three lines, MOFFAT & CO., 20 $\frac{3}{4}$ CARAT. \$16.00. The second line and value is incused. Reverse, plain. Gold ingot or bar, size 14x35x3 $\frac{1}{4}$ mm. Extremely fine. Small nick on top edge. Excessively rare. One of the most interesting and curious of all Pioneer gold coins. Probably not more than ten specimens known. The first to be offered in several years.

Unique Specimen of the Extremely Rare 1852 \$10.00.

- 139 1852 \$10.00. Liberty head L., diadem inscribed MOFFAT & CO., date below, 13 stars. Reverse, eagle and shield similar to the \$50.00 gold piece but the ribband is plain; 880 THOUS on scroll above. Around, 264 GRS. CALIFORNIA GOLD TEN D. Milled edge. Slight die crack across right field on reverse. Pin point dent on cheek, from die or planchet before striking. **Beautiful brilliant proof.** Mr. Rawson secured this coin from the Jenks' collection. Originally this coin is from the personal collection of Augustus Humbert. Extremely rare in any condition, but when we consider the wonderful state of preservation of this gem, which is undoubtedly the first specimen struck, together with its pedigree of former ownership, I consider it one of the most valuable and highly prized coins of the entire Pioneer series.
- 140 1853 \$20.00. Type of regular U. S. issue but with MOFFAT & CO. on diadem; reverse, legend, SAN FRANCISCO CALIFORNIA TWENTY D. Practically uncirculated, with frosty mint surface. By far one of the finest specimens of this rare coin I have ever handled, and as such valuable.

- 141 1849 \$5.00. Liberty head L., MOFFAT & CO. on diadem, date below. Reverse, eagle with shield, arrows and olive branch as on regular issue; around, S. M. V. (Standard Mint Value), CALIFORNIA GOLD. FIVE DOL. **Uncirculated**, bright mint luster. Excessively rare in this wonderful condition. Ordinary specimens of this coin sell at only \$12.50 to \$15.00, but as mentioned in my catalog of the Dr. Wilharm Collection, where this specimen comes from, I consider this specimen worth ten times as much.
- 142 1850 \$5.00. Type as last. The so-called large eagle variety. Extremely fine, nearly uncirculated, with considerable mint luster. Very rare in this choice condition.

WASS, MOLITOR & CO.

Reverse, very good. One of the best struck specimens of this coin I have ever seen. It is seldom that this coin is found better than fair or very fair, as they all seem to have been poorly struck.
- 144 1852 \$5.00. Obverse, similar to last but of better workmanship. Reverse, eagle as on regular issue, legend, FIVE DOLLARS IN CALIFORNIA GOLD. Few light nicks, hardly noticeable, otherwise the coin is extremely fine and by far the best specimen of this rarity that I have ever seen. This particular coin in such choice state of preservation is extremely rare and valuable.

The WORLD FAMOUS

DEKADRACHM of SYRACUSE.

SYRACUSE. Dionysian period, B. C. 405-345. **Dekadrachm.** Obverse, beautiful head of Persephone facing to left, crowned with corn leaves, wearing earrings and necklace, and surrounded by four dolphins: The artist's name, EYAINÉ (Euainetos) below head: Reverse, fast Quadriga to left above, Nike flying to right about to crown the charioteer; below, prize armour, helmet, thorax, greaves. Weight, 668 Grains. Unusually well centered for this coin: as a whole it can be classed as very fine. It is free from serious nicks or dents, and shows just a sufficient amount of circulation to make it most interesting. As a whole, it is a most beautiful specimen of this artistic production of the famous ancient Greek engraver Euainetos. These magnificent Dekadrachms were issued after the Athenian defeat. The arms in the exergue may be arms taken from the Athenians and offered as prizes in the Assinarian games which were established to commemorate the event. According to Barclay V. Head in "Historia Numorum," the Dekadrachm of Euainetos seems to have been more generally admired than any other coin in antiquity (as in modern times).

PLEASED *to* ANNOUNCE

THAT

I Have in Preparation the
Collection of Rare Coins

OF

DR. WILLARD N. SIMMONS
OF CONNECTICUT

Another Usual—"Unusual Mehl" Sale—
to take place in early part 1923.

If you contemplate the Sale of YOUR Collection, either for immediate cash or at auction, I'd appreciate an opportunity of **SHOWING** you just why such a marked preponderance of all fine collections are being placed with me.

Liberal cash advances made on consignments of value, or I will purchase outright for spot cash entire collections up to any value.

Also, personal interview can be arranged for, where the transaction warrants, for any part of the country. Correspondence invited and always promptly and cheerfully attended to.
